

**CLAIM AMENDMENTS:**

Please amend Claim 97, as indicated. A complete set of the claims is included below, reflecting added subject matter (*underlining*) and deleted subject matter (*strikethrough*), as well as the current status of each claim.

Sub I 7  
1-96. (Canceled)

97. (Currently Amended) A commercial transaction communication system for selectively enabling video communications through a communication system between members of plural groups, as buyer groups including at least one buyer and as vendor groups including at least one vendor, at remote locations for accomplishing electronic commerce transactions, comprising:

video display systems, at least one video display system for at least each of said one buyer and said one vendor, the video display system including video display terminals, the terminals including an input, at least one of said video display systems being capable of operating in at least two modes,

a dynamic, full motion video system for providing real-time video of at least certain vendors to certain of said buyers, said video system including at least one camera to image at least one of said buyer and ~~seller~~ vendor,

an interconnect system adapted to selectively electronically couple the video display terminals through the communication system on the basis of stored information and buyer input, and to permit the exchange of commercial transaction data between said buyer and seller, and

a video format switch adapted to selectively couple said vendors and buyers in ~~an~~  
~~interoperable manner~~ a compatible mode to effect video communication in a selected  
video format on either analog or digital lines, said format switch being coupled to the  
interconnect system.

98. (Previously Added) The commercial transaction communication system for  
selectively enabling video communications between members of plural groups of claim 97  
wherein the format switch is coupled to a video codec of said buyer.

99. (Previously Added) The commercial transaction communication system for  
selectively enabling video communications between members of plural groups of claim 97  
wherein the form of communication is analog.

100. (Previously Added) The commercial transaction communication system for  
selectively enabling video communications between members of plural groups of claim 97  
wherein the form of communication is digital.

101. (Previously Added) The commercial transaction communication system for  
selectively enabling video communications between members of plural groups of claim 100  
wherein the digital communication includes digital video.

102. (Previously Added) The commercial transaction communication system for  
selectively enabling video communications between members of plural groups of claim 97

further including an input system for actuation by buyers and vendors for interaction with said system, at least certain of said buyers adapted for utilizing an on-line service as a portion of said system.

II  
HX  
103. (Previously Added) The commercial transaction communication system for selectively enabling video communications between members of plural groups of claim 97 further including a storage memory for storing data on said members of said plural groups, including identification data relating to both buyer groups and vendor groups, commercial transaction data relating to at least certain members.

104. (Previously Added) The commercial transaction communication system for selectively enabling video communications between members of plural groups of claim 97 further including a control system to selectively interconnect said members of said plural groups, including at least certain of said buyers and sellers, said control system selectively providing transmission of dynamic, full motion video.

105. (Previously Added) The commercial transaction system of claim 97 further including an audio system for provision of audio to said possibly interested buyer in combination with a high resolution still image.

106. (Previously Added) The commercial transaction communication system of claim 105 wherein the audio system provides voice.

107. (Previously Added) The commercial transaction communication system of claim 106 wherein the audio system provides real-time voice communication.

108. (Previously Added) The commercial transaction communication system of claim 97 wherein the dynamic video system includes a camera associated at least with said vendor.

109. (Previously Added) The commercial transaction communication system of claim 108 wherein the camera is adapted to image said vendor.

110. (Previously Added) The commercial transaction communication system of claim 97 wherein the dynamic video system includes a video storage system.

111. (Previously Added) The commercial transaction communication system of claim 97 wherein the system further includes a printer.

112. (Previously Added) The commercial transaction communication system of claim 97 wherein the dynamic video system includes a freeze frame capability.

113. (Previously Added) The commercial transaction communication system of claim 97 wherein the dynamic video system includes a high resolution video capability.

114. (Previously Added) The commercial transaction communication system of claim 97 wherein the dynamic video system includes real-time video.

115. (Previously Added) The commercial transaction communication system of claim 114 wherein the dynamic video system includes two-way video.

51  
116. (Previously Added) The commercial transaction communication system of claim 115 wherein the real-time video is live person-to-person video communication.

117. (Previously Added) The commercial transaction communication system of claim 97 further comprising:

a text system for provision of text data including commercial transaction data.

118. (Previously Added) The commercial transaction communication system of claim 97 wherein the commercial transaction data includes product identification data.

119. (Previously Added) The commercial transaction communication system of claim 97 wherein the commercial transaction data includes order data.

120. (Previously Added) The commercial transaction communication system of claim 97 wherein the commercial transaction data includes purchase order data.

121. (Previously Added) The commercial transaction communication system of claim 97 wherein the text data includes alphanumeric data.

122. (Previously Added) The commercial transaction communication control system of claim 97 wherein the identification data is obtained for at least certain of said members from said on-line computer service.

123. (Previously Added) The commercial transaction system of claim 97 wherein said commercial transaction data includes electronic data interchange (EDI) data at both the buyer and seller location.

124. (Previously Added) The commercial transaction system of claim 123 wherein the electronic data interchange (EDI) data includes electronic commercial transaction forms.

125. (Previously Added) The commercial transaction communication system of claim 97 wherein the plural groups includes at least one potential buyer and a plurality of vendors.

126. (Previously Added) The commercial transaction communication system of claim 97 wherein the plural groups includes at least one vendor and a plurality of potential buyers.

127. (Previously Added) The commercial transaction communication system of claim 97 wherein the plural groups includes a plurality of potential buyers and a plurality of vendors.

I  
128. (Previously Added) The commercial transaction communication control system of claim 97 further including an image storage system for storing images for provision to said buyer.  
H

129. (Previously Added) The commercial transaction communication control system of claim 128 wherein the image storage includes still images.

130. (Previously Added) The commercial transaction system of claim 97 further including an inventory control system.

131. (Previously Added) The commercial transaction system of claim 130 further including a notification prevention system when said inventory control system indicates that the product or service is unavailable.
